### Daraghmeh Digital \*

Owner/Freelance Web Developer

2010 to Current

I have acquired over the years, an arsenal of particular set of skills; skills that have allowed me to acquire independent freelancing projects.

- Projects varying from implementing a template based site to complete custom websites to web apps
- Creation/implementation of website, hosting, maintenance of content/database/design, user interface, clone/migration and more

## Projects

### Intro to Software Engineering (Team/Development Coordinator) \*

A three week **Python Django** infused based project with the purpose of enabling neighbors in a community to be able to share items of common use. Later was enhanced and published online as an independent learning project.

### Digital Systems Project

Four week **VHDL** based project in creating, simulating, and synthesizing a behavioral model of a vending machine.

### Hardware Description Lab

The design and simulation of three image processing algorithms in **VHDL** (Contrast increase/decrease, Stretching and Median filtering).

### Problem-Based Intro to CS

Ten week **Python** based project for creating an artificial intelligence to play the classical game Quoridor.

### Object Oriented Programming

Two week **Java** based project designed in the way of model-view-controller (GUI/Engine) for the classic game Battleship.

Event Coordinator/Web Master/  
Volunteer

Sep 2013  
to  
Aug 2016

### RIT Muslim Student Association \*

Vice-President/Director of IT

### Participated Hackathons \*

RocHack 14, BrickHack 15/16/17,  
HackNJIT 15, HackRPI 15

## Skills

### HARDWARE

Altera Board  
HCS12

Digital  
Multimeter

Function  
Generator

Tektronix  
Oscilloscope

### LANGUAGES

Python  
C/Objective C

Java

HCS12  
Assembly

VHDL/Verilog

HTML5/CSS

JavaScript

XML

MySQL

PHP

### SOFTWARE

Autodesk  
Inventor/Revit

PyCharm

Keil

Matlab

MicroStation

PSpice

Quartus

Visual Studio
